

Student Productivity Hub

Plan smarter. Study better. Stress less

About the project

The Student Life Management System is a centralized digital workspace designed to help students efficiently manage their academic and personal responsibilities. Instead of using multiple apps for planning, tracking, note-taking, and studying, this system brings everything together into one organized platform. It includes task management, academic planning, attendance tracking, study resources, progress monitoring, and AI-powered study assistance to improve productivity and simplify student life.

The Student Productivity Hub is a centralized academic workspace built in Notion to help students efficiently organize their college life.

Key Features

-  Course Management
-  Assignment Tracking

-  Academic Planning
 -  AI Study Assistance
 -  Student Wellness
 -  Connected Databases
-

Navigation

DASHBOARD

View tasks, goals, exams, and your academic overview.

COURSES

Manage your courses, attendance, faculty, and credits.

ASSIGNMENT TRACKER

Track assignments, deadlines, marks, and submission

ACADEMIC PLANNER

Plan your schedule with assignment and exam calendars.

DATABASE CENTRE

Access all connected databases from one central location.
